

Join Us In San Antonio!

KScope12 is the premier conference for Hyperion techies and up-and-comers. Whether you are looking to brush up on your skills, learn new skills, or see how others overcome challenges, you will want to participate in this event. If your organization values your development and has a budget for these growth opportunities, mark your calendar for June 24th through the 28th. Registration is open, and as more information is available, it will be published at In2Hyperion.

Presenting a topic is a great way to reduce the cost of the trip. It's a great way to get your name out in the community as well. If you have something that you think would be valuable for other experts to hear about, submit an abstract.

We hope to see you there. Visit www.kscope12.com for all travel details and abstract submissions.
