Follow @EPMTechTips And Stay In Touch With Hyperion Trends

I would like to introduce a networking opportunity for all you infrastructure groupies, or those interested in the technical side of the Hyperion suite. Follow Rob Donahue on twitter — @EPMTechTips.

From Rob:

> Get useful info as it relates EPM (Hyperion) technology, particularly around infrastructure, installation & troubleshooting. Questions are welcome!

Rob Donahue is the Director of EPM Infrastructure at Rolta and specializes in infrastructure and architecture with an emphasis on Oracle EPM systems. Rob has over sixteen years of experience delivering enterprise solutions utilizing his expertise in systems architecture, performance testing, and capacity planning. He has been applying this experience to leading the successful implementation of large and complex enterprise systems including Hyperion / Oracle EPM environments. These implementations have spanned across industries and have included Fortune 250 retailers and financial services companies.
